## MEXICAN DICTATOR STILL DEFIANT, BUT ULTIMATELY MAY YIELD TO U.S. DEMANDS

### Congress Adjourns of Lack of Quorum, Which May Will Automatically End; Madero Brothers Escape to Cuba

MEXICO CITY, Nov. 21.—Most of the happenings here today continue to indicate that Victoriano Huerta is unalterably determined not to accede to the demands of the United States government for his elimination as president of Mexico. However, there is some basis for the belief that he may at last give in, but in such a manner as to leave the impression that he acted of his own free will, defying Washington to the last.

The high-handed parliamentary action in the chamber of deputies this morning gave rise to much speculation. The roll of members was called and it was quite evident the number necessary for a quorum was present. Vol. Victor Corral, presiding in the absence of Eduardo Tamariz, the speaker, who was said to be ill, looked at deputies straight in the eye and cleared there was no quorum. Not a deputy protested, and the chamber adjourned until tomorrow.

**Congress May Adjourn.**  
It was suggested this action might be part of a plan to bring about the adjournment of the congress and thus split the Huerta government. John Lind, President Wilson's representative, had insisted that this legislative body should not come to existence.

Under the law, should there be no quorum three times in succession, the congress would be automatically dissolved. One Mexican, speaking upon a motion for today's adjournment, said it was merely a time-saving device, adding: "Time for Huerta to be done-up gold."

**Why Adams Was First.**  
It became known today that Manuel Adams, prior to his expulsion from the cabinet, had been for the adjournment of the congress. Adams, it was said, had been merely for the adjournment of three or four measures, namely: Ratification of the decrees of the 11, dissolving congress, declaring the elections of president and vice president null and void, and calling for new elections, and because there might be the question as to the legality of the new chamber and senate, calling for election for deputies and senators.

It was understood that after measures had been acted upon the congress would adjourn and the congress would await the results of elections.

For this reason, it is not believed that the no-quorum rule will be carried indefinitely, and that it was used merely to gain time.

Government officials are authority for the statement that there has been no quarrel between Nelson O'Shaughnessy, the American charge d'affaires, and Mexican cabinet negotiations. Confrontation of this is not obtainable at the embassy and in government circles details or refused.

**British Squadron Coming?**  
A British cruiser squadron was reported from Barbados to Vera Cruz, representations made by Sir Lionel Denham, became known here today. It also learned that a counter order issued as the result of an energetic communication from Secretary of State to the British ambassador at Washington, Sir Lionel Denham is to have represented to his government that conditions have become so bad that fresh armaments would be no surprise, and in event that they

## War With Mexico Would Mean Human Lives vs. Dollars, Says English Paper on the Situation

### American Financial Interests Are Backing Mexican Revolution, It Says; Oil Trusts and Wall Street Are Severely Arraigned as Supporting War Program

LONDON, Nov. 21.—Under the heading "A Money Grubbers' War," the London Times today takes a bitter and scathing view of the situation in Mexico.

Across the Atlantic, the Outlook says, "there is in busy preparation, if not in fact, a campaign against Huerta. The forces can accomplish it, a campaign against civilization, against humanity. At any moment we may hear of the first overt stages, with inevitable slaughter of tens of thousands of young Americans and the sufferings of the helpless and the outpouring of millions of money."

And all for what and for whom? A have been waged for military glory, but who is the Napoleon of the United States? They have been waged for the sake of a few dollars, and they are waged for the sake of a few dollars. They have been waged for the sake of a few dollars, and they are waged for the sake of a few dollars.

## DESPERADO KILLS THREE OFFICIALS

### WANTED FOR MURDER AT BINGHAM, UTAH

### Takes Refuge in Hills and Is Pursued by Armed posse and Police

SALT LAKE CITY, Nov. 21.—Chief of Police Grant of Bingham and Deputy Sheriffs Otto Whitbeck and Neph Jensen were killed in a battle with a desperado, a Mexican, near Bingham, Utah, late today. Lopez was wanted in Bingham for the murder of a countryman there early this morning.

After slaying the three officials, Lopez fled into the hills, where he is being pursued tonight with the prospect of another fight if he is overtaken.

The murder for which Lopez is wanted was committed near the Highland Boy mine at Bingham early this morning, when he shot and killed John Valdez.

Immediately after the murder, Lopez, armed with a 30-30 rifle, left the mine camp with a posse following a short time later. The posse was able to track him in the snow for an hour, when the trail was lost.

**Tracked Down by Posse.**  
It was picked up again this afternoon and shortly before 6 o'clock tonight, the fugitive was located hiding in a clump of bushes near Saratoga Springs, about 40 miles south of this city.

Deputy Sheriff Whitbeck called upon him to surrender and was answered by a bullet which killed him. Lopez then turned his gun on Chief Grant, killing him. Deputy Jensen, the third member of the posse, received a wound while trying to defend his comrades, from which he died soon after aid reached him.

Following the shooting of the officers, Lopez resumed his flight and had not been captured up to a late hour tonight. Several automobile loads of police officers and deputy sheriffs have left Salt Lake to take up the hunt for Lopez.

The fugitive is believed by the police to be a man of about 35 years of age, of Mexican descent, and he has a mustache and is covered with a thick undergrowth.

## HAIF OF COLORADO'S LEGISLATORS SILENT

### Only 52 Reply to Question Concerning Plan for Special Session

Six replies were received yesterday to Representative Thomas E. Thomas' query regarding the holding of an extra session of the legislature to pass an arbitration act. Three were opposed to an extra session, two in favor, one noncommittal. Added to the replies previously received, the expression of opinion as made to Mr. Thomas is as follows:

For a special session, 21  
Against a special session, 19  
Noncommittal, 5

There are 100 members of the legislature, in both senate and house. To date only 52 replies to Mr. Thomas' query, which was sent out week ago, have been received. It is evident there are many members who don't wish to express themselves one way or another. This, but adds strength to the theory that has been advanced, that Colorado Democrats are not unwilling to have Governor Ammons make the goat for the party. If the legislature should be called together in special session, without passing legislation for the settlement of the strike, responsibility would be centered on the Democratic party.

If there is no extra session, politicians hope, it will be possible to blame Ammons for all that has been done as well as what has not been done. There are many who wonder, however, why the governor is content to shoulder the blame.

The replies received by Mr. Thomas yesterday were from the following:

In Favor of a Special Session,  
J. H. Ferguson, Democrat, Teller.  
Phil McCarty, Democrat, Denver.

Against a Special Session,  
A. T. Woods, Democrat, San Miguel.  
Antonio L. Valdez, Republican, Hueco.

Noncommittal,  
W. L. Philbin, Democrat, Chaffee.  
"I am in favor of an arbitration act," writes Mr. Ferguson, "providing that it is fair to the miners as well as to the operators."

"If an arbitration act can be passed that will be legal and practical," writes Mr. McCarty, "I think the legislature would not hesitate to pass it if called together. Outside of state officers, I think the legislature is the only agency that can do anything. Different chambers of commerce bodies and kindred organizations have either been asked or begged into this affair, only to make the feeling among the contending parties worse. These organizations were established before undertaking to settle the matter. Some drastic action should be taken at once, and the idea of compulsory arbitration seems to be the best so far advanced. I will vote for any proposition that seems best and (Continued on Page Two)

## LABOR RACKS U. S. POLICY IN MEXICO

### Federation Takes Firm Stand in Support of the Monroe Doctrine

### Indorses 'NAVAL HOLIDAY' Philippine Independence and Abolition of Slavery Strongly Urged

SEATTLE, Nov. 21.—The American Federation of Labor refused today to adopt a resolution condemning armed intervention in Mexico, on the ground that such intervention might be justifiable and defensible. The convention unanimously adopted the following resolution:

"The American Federation of Labor condemns attempts being made by American and foreign corporations and certain jingo newspapers to force armed intervention by the United States government in Mexico, and urges upon the president of the United States the continuance of a policy looking to a peaceful adjustment of the conflict among the Mexican people, and that the president and secretary of the American Federation of Labor be instructed to transmit the position of the federation upon this matter to the president of the United States."

John Mitchell took the floor and begged the convention not to hamper President Wilson. While he was a peace advocate, he believed there were conditions that sometimes justified war within a nation and between nations.

**Unopposed, Says Gompers.**  
President Gompers said the subject had taken much time of the executive council, which had "tended to representations of both foreign factions, and he had much correspondence on the subject."

"We are unconcerned in that contest," he said, "it means displacement of an armed man like Diaz by another armed man."

Mr. Gompers recalled the cause that led to the Madero revolution, saying in part:

"The lands of Mexico were parcelled out by President Diaz to his favorites and his friends and to American and other foreign corporations for purposes of their own private gain, with additional (Continued on Page Two)

## SLIDING WALL OF ROCK BURIES SHORT LINE TRACK

### Immense Slide 19 Miles From Colorado Springs Road Will Be Blocked For Days

A tremendous slide of rock, gravel and earth covered the tracks of the Short Line railroad 19 miles west of Colorado Springs yesterday morning about 4:30 o'clock and officials estimate that it will be four days before the tracks can be cleared for traffic.

A light engine in charge of Engineer Brundeger struck the slide while going at a slow rate of speed but there was no damage. All Short Line traffic was detained over the Midland tracks to Cripple Creek yesterday.

The slide occurred east of the water tank at switch No. 2, near the second cut. It was impossible to estimate the amount of rock that crashed down over the tracks, which lay nearly 30 feet high in some places along the roadbed.

## Special Meeting of Progressives Monday Evening

There will be a special meeting of the El Paso County Progressive club Monday evening, Nov. 25, at 8:30 o'clock at the club headquarters on the third floor of The Gazette building, when reports will be received from the various precinct captains conducting the membership and budget campaign and extension of the work into new precincts arranged for.

All those who are engaged in this work are requested to be present as well as members of the club from other precincts and other persons who are willing to cooperate in this important work; and a particular invitation is extended to believers in Progressive principles who have not enrolled in the club.

The executive committee will meet at 8 o'clock sharp half an hour before the general meeting, and all members are urged to be present at that hour.

## M'GUIRE PARTNER C. F. MURPHY, JR.

### SPLIT RAKEOFF ON CONTRACTS, HE SAYS

### Forced Republicans to Dig Up for the Democratic Campaign Fund

NEW YORK, Nov. 21.—George H. McGuire of Syracuse, bonding agent for state highway and barge canal contractors, is a partner of Charles F. Murphy, Jr., nephew of the leader of Tammany hall. He so testified today at the "John Doe" inquiry into highway graft, and said he had an agreement with Murphy to divide all the bonding business they obtained.

McGuire confessed to having attempted to force at least three asphalt companies to make \$5,000 contributions to the state Democratic committee, in return for securing them contracts from the state highway department. McGuire was to receive a commission of one cent a gallon for all the asphalt the companies sold to the state or to contractors, he said, and the companies were to charge the contributions against the commission.

Two of the companies, the Warner Quinlan company and the Union Oil company of California, did not contribute, he said. Whether the third, the Barber Asphalt company, contributed, McGuire said he did not know, but the Barber company was given the contract. He said he had received a total of \$1,250 from Arthur S. Johnson, sales agent of the Barber company, but insisted this did not represent commissions, but was given him as campaign contributions to Governor Sulzer.

**Split the Commissions.**  
Regarding his association with Charles F. Murphy, Jr., in the bonding business, McGuire said he had an agreement with the Tammany leader's nephew which embraced a division of expenses and commissions on the (Continued on page four)

## E. J. ULLRICH AND C. H. CURTIS ARE APPOINTED

### Will Represent Coal Operators on Special Committee of Seven Which Will Investigate Cost of Mining

With but two members remaining to be appointed, the personnel of the commission which will investigate the cost of mining in Colorado Springs probably will be completed today.

The coal operators yesterday selected E. J. Ullrich of the El Paso Coal and Coal company and C. H. Curtis of the Curtis-Gray-Papson Coal company to the Federated Trades council already appointed J. K. Radley and Thomas E. Thomas, and the resolution establishing the commission named the mayor as one of the members. The Chamber of Commerce and Federation of Women's clubs have as yet failed to name their members.

Mayor McKesson expects the commission of seven to be completed before this afternoon. The initial meeting of the investigating body will be held as soon as possible after all the members are appointed and the work should be well under way by the middle of next week.

## CITY TEACHERS WILL HOLD ANNUAL BANQUET TONIGHT

### Three Hundred and Fifty to Attend Gathering—Dr. E. A. Steiner Will Be Principal Speaker

A gathering of the city's prominent educators and patrons of culture will meet this evening when the fourth annual banquet of the teachers of Colorado Springs will be held at the Antlers. Men and women from business, professional and educational circles have accepted invitations to attend.

Dr. Edward A. Steiner, of Grinnell college, Ia., will deliver the principal address of the evening. Dr. Grinnell is a lecturer and author of note and has contributed many magazine articles dealing with the immigration question, on which subject he is a recognized national authority. He will be a speaker at the coming state teachers' convention at Pueblo.

The receiving line will be formed at 6:30 o'clock and the banquet will start promptly at 7:30 o'clock. Prof. James W. Scott, principal of the Lincoln school, will act as master of ceremonies. The Temple Male quartet will sing. L. B. Grafon is chairman of the committee on arrangements, and all plans are completed. About 350 guests are expected, which number is an increase of nearly 100 over previous occasions.

Among the out-of-town guests who are expected are Dr. Z. N. Snyder, principal of the State Teachers' college at Greeley; Mrs. Mary C. Bradford, state superintendent of instruction; J. E. Keating, superintendent of schools at Pueblo; Superintendent Allen of Grand Junction; Principal Fletcher of the Denver Centennial high school; Mrs. Marion Jones, president of the Denver school board; H. V. Keener, principal of the Denver Night High school; and several other members of the Pueblo and Denver school boards.

## OPERATORS REFUSE TO MEET UNION REPRESENTATIVES IN DENVER STRIKE CONFERENCE

### Secretary Wilson Studies Situation to Get at Cause of Trouble; Military Authorities Active at Trinidad; Oak Creek Mayor Arrested

DENVER, Nov. 21.—Coal mine operators tonight expressed their disapproval of the personnel of the committee of mine workers which had been selected for a conference with them, Governor Ammons and Secretary of Labor Wilson, and refused to meet with them. Thomas J. Benyon, former mayor of Lafayette; William Gilbert from Fremont county, and Alexander Thompson of Trinidad were the men selected by union officials.

The operators stated that they had made it plain they would not deal with any union official nor any person who had been guilty of violence during the strike. They asserted that Benyon is not a miner and that he has not worked in the Rocky Mountain Fuel company property, which he purports to represent, for five years. They intimate that the discussion will be such in name only.

The activities of Secretary Wilson today were confined to a study of the situation which led up to the strike. His future action has not been determined, but he will be given a free hand by Governor Ammons and the state will offer him every assistance possible in the investigation which he will make of the strike with the idea of settlement in view.

No reports of violence in the strike regions reached the governor tonight.

**Military Authorities Active.**  
TRINIDAD, Nov. 21.—A military board of inquiry examined more than a score of witnesses today and continued in session until midnight in an attempt to fasten responsibility for the death of G. W. Reicher, a detective who was shot and killed here last night, upon the proper persons. It is the intention of the military authorities that a plot existed, in which a number of prominent union men were implicated, through which the death of the detective was brought about.

Marshall A. T. Davis of Aguilar was made military prisoner tonight, and subsequently released after being questioned as to his knowledge of the shooting which resulted in the death of a nonunion miner, whom he had discharged from his custody at Aguilar recently. The miner had been set upon by strikers and was being escorted from Aguilar by the marshal. Upon reaching the town limits the marshal abandoned his charge who proceeded about 40 feet down the road when a shot from ambush killed him. Marshal Davis was instructed to remain in Trinidad for several days to be at the immediate call of the military authorities.

Six of the witnesses examined today were arrested and held incommunicado under military guard at the county jail.

The situation here today remained tense, though there was no outward show of excitement. A coroner's jury has been summoned to conduct an inquest into the death of Reicher, whose body today was sent to his home in Norfolk, Va.

**Oak Creek Mayor Arrested.**  
OAK CREEK, Colo., Nov. 21.—Warrants were issued today against Dr. C. A. Pankey, mayor of Oak Creek, and four alleged strike leaders, today, charging them with conspiracy in connection with the assault upon the Catholic church last Wednesday night by Mike Pilcher, a Hungarian striker. Resident Mayor Pankey, the warrants are for the arrest of James B. Sullivan, secretary of the Oak Creek union of the (Continued on Page Two)

## TALES OF REAL SACRIFICE UNFOLDED IN DONATIONS OF CHILDREN TO AID POOR

### Many Deny Selves to Give City's Unfortunate Ones a Big Dinner on Thanksgiving Day

An apple, a withered apple, was all she had. Eagerly she reached forth her tiny hand and placed the dwarfed fruit beside the packages and vegetables and boxes piled upon the school-room floor. The apple was her contribution to the school children's Thanksgiving offering to the city's poor taken yesterday at all of the city schools.

"For the poor," why she was poor herself, poor in worldly goods, but not in the true spirit of Thanksgiving. The apple was all she had, it meant sacrifice. At home apples, yes, and other things, were scarce, other children brought larger offerings than hers. Some brought whole baskets of apples and potatoes. None, however, went away with a gladder heart, or eyes more filled with the burst of happiness than did she who gave the withered apple a good home.

With money, clothing, food, vegetables and coal the children of Colorado Springs yesterday showed their respective school buildings in their annual thanks offering to the poor. Twelve hundred dollars' worth of offerings were made to the Hagerman building where the Associated Charities will hold a distribution of the Thanksgiving day.

It was a story of heart throbs, throbs of sadness and joy.

**Gives Little Red Chair.**  
On the outside edge a little red chair lay on its side. "I do-o-nated that," said a small girl, pointing to the overturned bit of furniture. She had come to the Associated Charities to view the collected offerings. "It has held all my dolls," she continued. "They'll have to lie on the floor now, but only till Christmas, then they're going to have an auto. Maybe some poor little girl won't have any Christmas. She can have this chair."

Over on another side of the pile were two halves of a suit box filled with coal.

"One of the old school janitors gave that," volunteered a driver who was unloading the gifts from a wagon. "He says he's one of the children. Humph! Some little fellow, I guess."

"Yes, second childhood," chimed in a companion. "Perhaps the drivers did not realize that the load they hauled yesterday was hearts."

"My daughter cried all morning," said a tired looking mother yesterday afternoon to one of the Associated Charities agents. "She wanted to take something for the offering. I refused. We are poor. Finally I could stand it no longer. She took a can of corn."

"That family will get a dinner on (Continued on Page Three)

The Johnson Jewelry Co.

**CHICAGO NOW HAS  
SUMMER WEATHER**

Middle States Enjoy High  
Temperatures; Will Be  
Cooler Today

CHICAGO, Nov. 21.—Balmier weather, accompanied by a southwest wind, which reached a velocity of 40 miles an hour, continued today in the lake region. Abnormally high temperatures were reported throughout the Mississippi and Ohio valleys.

The thermometer here registered 72, the warmest ever recorded at this time of the year.  
The highest temperature reached in the central division of the weather bureau was 75 at Springfield, Ill. It was 74 at Cairo, 70 at Milwaukee and Indianapolis, 68 at Kansas City and Cleveland, and 62 at Omaha.  
Temperatures will be somewhat lower in the central west tomorrow, but will continue above normal.

Under forest regulations in Colombia, rubber gatherers are required to give the trees a rest period in tapping them for gum. The size, number and location of the incisions are regulated by law. In the United States similar regulations are in force in the tapping of pines for turpentine on the Florida national forest.

**JOHN H. MARBLE  
DIES SUDDENLY**  
DEATH DUE TO ACUTE  
INDIGESTION  
Member Interstate Commerce  
Commission for Many  
Years

WASHINGTON, Nov. 21.—John H. Marble, a member of the interstate commerce commission, died here tonight of acute indigestion. He was taken ill yesterday in Philadelphia.  
Mr. Marble's death came very unexpectedly, not even the members of his family being warned of the approaching end. Mrs. Marble and their 15-year-old daughter, who had been almost constantly at the bedside since yesterday, were not in the room at the time, the family physician having just been called.  
The commissioner returned home from Philadelphia last night. He had been taken ill suddenly and his condition was so serious it was decided to postpone the hard coal hearings and bring him home. He stood the trip well and apparently was much improved when he reached home. The physician was called but apparently there were no indications that the patient's condition was dangerous. Improvement continued until this evening when Mr. Marble was attacked with nausea. He died at 7:30 o'clock, a few moments after the doctor arrived. The news shocked Washington officials, particularly Mr. Marble's associates on the commission.

With Commission Many Years.  
Funeral arrangements had not been completed tonight but the body probably will be taken to Mr. Marble's old home in San Francisco for interment. Mr. Marble had been connected with the interstate commerce commission for a number of years and was thoroughly trained in its intricate workings. He came here first in 1908 as confidential clerk to Franklin K. Lane, now secretary of the interior. In a short time he was made attorney in charge of the division of prosecutions. Later he was appointed secretary of the commission to succeed Edward A. Moseley. In this capacity he acted as legal adviser to the commission. He succeeded Mr. Lane when the latter entered President Wilson's cabinet and had been active in the commission's cases, particularly its criminal prosecutions. At the time of the Lullmer investigation in the senate he was given a leave of absence to appear as counsel for the investigating committee.  
Mr. Marble was 46 years of age and before coming here practiced law and engaged in newspaper work on the Pacific coast.

FOR CHILDREN THERE IS NOTHING  
A cough medicine for children must help their coughs and colds without bad effects on their little stomachs and bowels. Foley's Honey and Tar exactly fills this need. No opiates, no stimulants, no constipation following its use. Stuffy colds, wheezy breathing, coughs and croup are all quickly helped, and sweet, refreshing slumber instead of feverish tossing at night. It is easy, therefore, to understand why an increasing number of bottles of Foley's Honey and Tar Compound are sold yearly. Robinson Drug Co. Adv.

**M'GUIRE PARTNER**  
(Continued From Page One.)  
bonding of all large canal, state highway, subway and aqueduct contracts. They both represented the United States Fidelity and Guarantee company he said, and last year they had obtained about 25 per cent of the state highway bonding business.  
Three more state contractors testified today to having given campaign contributions to Everett P. Fowler, the alleged Tammy "bagman," now under indictment on charges of extortion. They were John H. Weidman, Charles O. McComb and Guy B. Dickson of Syracuse, and enrolled Republicans. They had each given \$200 to Fowler, they testified, after William H. Kelley, Democratic leader of Onondaga county, had written asking them to meet Fowler at county Democratic headquarters. They produced their checks, all payable to Norman E. Mack.  
"I told him I was a Republican," said Guy B. Dickson, in describing his interview with Fowler. "He only smiled and I said I'd think it over. Later I gave him a check for \$200."

**"STRAPHANGERS" MAY GET  
HALF FARE RATE IN D. C.**

WASHINGTON, Nov. 21.—"Straphangers" in street cars in the District of Columbia are cheering Senator Norris of Nebraska, who introduced today a bill in the senate providing that anyone entering a car and not being able to find a seat should be given a rebate check. Two of the checks, in the terms of the bill, would be legal tender for one fare.

**SCANDAL THREATENS  
ST. PAUL POLICE DEPT.**

ST. PAUL, Minn., Nov. 21.—A scandal involving former officials of the St. Paul police department was threatened today.  
A woman prominent in the underworld is alleged to have confessed to Municipal Judge Hanft that she had paid intermediaries \$1,000 for "protection." The woman was taken before the grand jury.

**COL. ROOSEVELT AND PARTY  
REACH SANTIAGO, CHILE**

SANTIAGO, Chile, Nov. 21.—After an enjoyable passage over the trans-Andean railway, Colonel Theodore Roosevelt and the members of his party arrived here this evening from Mendoza, Argentina. The officials of Santiago and an enormous crowd of citizens awaited the coming of the former American president at the central station and escorted him and his party as they were driven in government automobiles to a hotel.

**HUBBELL EXPLAINS  
PHONE TRUST PLAN**  
Thinks Vail Was Honest, but  
Unfair, in His Proposed  
Scheme

CHICAGO, Nov. 21.—Further information as to the activities in 1912 of the American Telephone & Telegraph company, for the purpose of absorbing 20,000 independent telephone concerns, was given today by R. G. Hubbell of Buffalo, government witness, in a hearing in connection with the prosecution of the American company for violation of the Sherman antitrust law.  
In the cross-examination of Mr. Hubbell, who is president of the Federal Telephone & Telegraph company, counsel sought to show that the proposed consolidation was to save expenses and would have resulted in lowering the cost of service to the public. Mr. Hubbell thought the motive of the American company was to eliminate costly competition.

The witness also told of an effort by the American company to obtain control of the Stromberg-Carlson company of Rochester, N. Y., said to be the second largest manufacturer of telephone supplies in the country. Mr. Hubbell said if the negotiations had been successful the independents would have expected to pay more for their supplies.  
Mr. Hubbell said there was no objection among the independents to the suggestion of Theodore N. Vail for a division of territory, the plan to ultimately result in consolidation.

"If Mr. Vail has submitted anything unfair or unlawful, or what you would have considered contrary to the interests of the public, would you have gone farther with the proposition?"  
"I thought he was acting in good faith," Mr. Hubbell replied. "I don't think he presented anything dishonest, but I did think what he suggested was unfair and unlawful."

Mr. Hubbell said the independents went ahead with the plan because it had many good features and he thought a fair adjustment of matters for the public might be worked out.  
The witness was asked if the plan had not been to effect a saving in operating the telephone systems of the nation.

No Cost Reduction.  
"Partially," he said. "But back of the idea I don't think there was any particular intention of reducing the telephone cost to the public. Mr. Vail's point was that competition in some districts was too severe."

Mr. Hubbell said that some of the highest officials of the American company in 1907 formed a supposed independent New Jersey corporation and attempted to buy the Stromberg-Carlson plant for \$5,000,000 cash. Before the negotiations were completed, the officers of the plant, Mr. Hubbell said, learned that the capital back of the move was "trust" money, and refused to negotiate further.

"What was their idea of acquiring the plant?"  
"I cannot say definitely, but the general understanding among the independents was that the American company, since they found it impossible to stifle competition in the regular course of business, decided to acquire complete control of the field of manufacturing telephone equipment and then raise prices exorbitantly."

Mr. Hubbell named the committee of seven who represented the independents in the negotiations with Mr. Vail and H. P. Davison of J. P. Morgan & Co. as follows:  
Frank H. Woods, Lincoln, Neb., president of the Lincoln Telephone company.

Theodore Garry, Mason, Mo., president of the Garry syndicate of telephone companies.  
James Griffith, Chicago, affiliated with the Automatic Electric company, who represented manufacturers at the conference.

E. H. Moulton, St. Paul, president of the St. Paul Telephone company.  
Arnold Kahn, director of the Kansas City Home Telephone company.  
A Mr. Edwards, a banker, who represented interests controlling the Independent Telephone company of Detroit.

**Device Invented in  
Prison Lands Man  
Back in Toils Law**

NEW ORLEANS, La., Nov. 21.—A device which he invented while serving a term in the Arizona penitentiary for forgery, is declared to have been indirectly responsible for landing Roy J. Meyers in jail here. Meyers, a hold out of \$5,000 bail of U. S. marshals, in connection with attempts to place his device on the market.  
Meyers, while in the Arizona prison, invented a "power sashcracker" with which he says, static electricity may be raised from the air and used for power.

Miss Kate Barnard, state commissioner of charities and corrections of Oklahoma, while visiting the Arizona prison, became interested in Meyers' invention. It is said she appeared before Governor Hunt and the Arizona legislature and succeeded in having Meyers paroled for 30 days to enable him to go to Washington and have his device patented. He returned from Washington without a guard and served the eight months remaining of his sentence.

**POLICE RAID A BOMB  
FACTORY IN CALCUTTA**

CALCUTTA, Nov. 21.—A police raid on a suspected house in Calcutta today led to the arrest of four men and the discovery of a bomb factory.

**AGUILAR PROMISES  
PROTECTION FOR ALL**  
Says Oil Fields on East Coast  
Will Not Be Molested in  
Any Way

WASHINGTON, Nov. 21.—Rear Admiral Fletcher, commanding the American fleet on the east coast of Mexico, late today cabled the navy department a message he had received from General Aguilar, the Constitutional leader, who has occupied the vicinity of Tampam giving assurances that American and other extensive oil interests in that territory would be protected.  
General Aguilar's message, sent in reply to Admiral Fletcher's demand that no harm should come to foreigners or their property, said:  
"I am governing on a Constitutional basis, my attitude being to guard the interests of all foreign and domestic oil corporations existing in the territory. Fulfilling in this manner the demands of civilization, and not being governed by caprice or vengeance."  
Fear No Trouble.  
Officials here think this means there will be no troublesome complications as a result of Aguilar's occupation of the fields there. Destruction of the tanks would have endangered the lives of many Americans and other foreigners. Two British armored cruisers, have been ordered to the scene, but in the meantime the United States has been asked to guard British interests.  
Frequent conferences today between Secretary Bryan, Counselor John Bassett Moore, and Acting Secretary Roosevelt and two visits by the secretary of state to the White house, accompanied by Mr. Roosevelt, were the outward marks of the deep interest of official circles in the Mexican situation.

Madros Board United States Ship.  
It developed that the wife of the two Madros brothers and their relatives, who had sought asylum in the American consulate at Vera Cruz, was a subject discussed at these conferences. There was a strong desire on the part of the administration to learn whether any resistance had been offered by the local Mexican authorities to the removal of the refugees aboard a battleship and it was quite apparent that a sense of relief was experienced when it was learned that it had not been necessary to employ force.

Lat in the day the department received a cablegram from Admiral Fletcher announcing that Daniel Madros and five companions were released this morning on board the Louisiana as refugees.

It was said at the navy department that no special instructions had been given in regard to the treatment of the refugees, although Admiral Fletcher had been told to confer with John Land, who last evening had been authorized by President Wilson himself to extend protection to the Madroses.

**Pres. and Mrs. Wilson  
Entertain for Daughter**

WASHINGTON, Nov. 21.—The president and Mrs. Wilson entertained tonight at a dinner at the White house in honor of their daughter, Miss Jessie Wilson, and Francis B. Sayre, who are to be married next Tuesday. It was the first White house function given for the young couple.  
The license for the wedding of Miss Jessie Wilson and Francis B. Sayre was issued late today, the lack of securing it having been entrusted to the veteran chief usher at the White house, J. H. Hoover. Mr. Hoover appeared at the city hall armed with all the information necessary and authorized to speak for the distinguished young couple.

**Train Disbanded by  
Wireless Telegraphy**

SCRANTON, Pa., Nov. 21.—Practicability of wireless telegraphy for the operation of railroad trains in transit was determined between this city and Rivington, N. Y., this afternoon when the Scranton and Rivington wireless station of the Lackawanna railroad was able to keep in touch constantly with the limited, the fastest train on the road, messages were sent to and from the train and received perfectly.

**CHINESE PLOT TO OVER-  
THROW PEKIN GOVERNMENT**

LONDON, Nov. 22. (Saturday.) A dispatch to the Daily Telegraph from Shanghai says the Chinese authorities there have discovered a plot of Chinese revolutionaries to overthrow the government. Six plotters have been arrested.

**TARIFF LAW AFFECTS  
HIGH COST OF LIVING**  
WASHINGTON, Nov. 21.—The effect of the new tariff law on the high cost of living and on industrial conditions furnished the material for some lively passages today in the senate. Senator Smoot produced a pamphlet, setting forth that reduction of wool and woolen duties would not result in a material reduction in the cost of clothing. Senator Stone of Missouri interrupted him.  
"When the tariff bill was on the floor," said Mr. Stone, "the republicans were prophesying industrial and financial disaster as a result of the measure. How can the senator now say that prices will not be reduced? We have seen none of the closed factories, the ruined mills or the squalid soup houses the senator painted so vividly. Now he tells us the cost of living is not reduced. Why, the average, standstill Republican, if he prays at all, is muttering supplications to the skies day and night that a panic may fall on the country. But no panic is in sight. There will be no panic. Let the senator withhold his prophecies as to the cost of living until we can see the real results of the Democratic tariff law."

**ONE GIRL WHO NEVER  
HEARD OF ROCKEFELLER**  
CLEVELAND, O., Nov. 21.—"Please have these charged to John D. Rockefeller of Forest Hill," said the richest man in the world today to a young woman clerk in a downtown department store from whom he had made some purchases.  
The spokeswoman, confessing that she did not know Mr. Rockefeller of Forest Hill, telephoned the head of the credit department.  
Mr. Rockefeller was accommodated and the young woman clerk who had questioned his credit was much reassured. Mr. Rockefeller smilingly reassured her, however, and said she deserved approval from her employers.

A word Medicine is one of the most used in our language. There are certain medicinal properties just as necessary to health as the food we eat. Take, for example, the well-known medicine S. S. S. This famous blood purifier contains medicinal properties just as vital as the food we eat. It is a vital element to healthy blood as the element of wheat, root beer, the fat and sugar that make up our daily ration. A matter of fact, there is one ingredient in S. S. S. which serves the purpose of stimulating each cell of the body to the healthy and sound selection of its own essential element. That is why it is a powerful supply; why it has such a tremendous influence in overcoming Rheumatism, Stomach and intestinal troubles, and all blood troubles.

It is in regenerating the tissues S. S. S. a rapid and positive antidote effect all those irritating influences that a sore throat, weak eyes, loss of hair, skin eruptions and the general condition of the body that leads to a state of ill health.

A bottle of S. S. S. at any drug store, and in a few days you will feel bright and energetic, but you have the picture of new life. S. S. S. is sold only in the laboratory of The S. S. S. Co., 215 Swift Bldg., At-Los Angeles, who maintain a very efficient department where all who have blood disorders of a stubborn nature can be helped.

S. S. S. is sold everywhere by drug stores, department and general stores, but permit anyone to sell you a substitute. Assist on S. S. S.

## JAIL SENTENCE NOW FOR AUTO SPEEDERS

**Council Passes Drastic Law Concerning Motorists; Water Tax Added**

Colorado Springs motorists who persist in speeding on any and all occasions soon will find themselves facing a jail sentence instead of a small fine when they are brought up in police court. If an ordinance introduced at the city council meeting yesterday is passed on final reading, the proposed ordinance was drawn up primarily to repeal the ordinance levying a city tax on automobiles and motorcycles, but it contains many other provisions regulating motor vehicles.

To partially offset the drastic measures taken against speeders, the ordinance raises the speed limits from 12 to 15 miles an hour within the fire limits and from 18 to 23 miles outside, with a limit of 30 miles at street intersections, and when passing stationary street cars. For violating the speed limits the ordinance provides a fine of from \$5 to \$50 for the first offense and from \$25 to \$100 for subsequent offenses.

**Can Jail Offenders.**  
The jail sentence clause of the proposed ordinance becomes effective when a person is found guilty of driving or causing to be driven a machine at more than 20 miles an hour within the fire limits and more than 30 miles outside. Both owner and driver of the vehicles are held responsible, and the offense is punishable by a fine of from \$25 to \$150, or from 10 to 30 days in jail, or both, for the first offense. For subsequent offenses, the penalty prescribed is a fine of from \$50 to \$200 or from 10 to 60 days in jail, or both. In addition the driver's license may be suspended or revoked in case it is granted by the city. The owner is declared liable if he proves he was not aware that the person driving the car was exceeding the limits.

The ordinance also covers the matter of licensing drivers, making it necessary for all chauffeurs to take out licenses, provided they do not hold either state or other city licenses. A fine of from \$5 to \$50 is provided for violation of the clause.

**Water Tax Included.**  
Another ordinance was amended providing for a water tax of \$2 a year on automobiles. The amendment was repealed when the city tax on automobiles became effective. The tax is payable by every machine in the city except where the water used is paid for on the meter basis.

At yesterday's meeting the council also passed on first reading an ordinance providing for the licensing of all junk dealers. The fee will be \$100 a year and a bond of \$1,000 a year must be filed with the city clerk. All collectors of junk must pay a license of \$10 a year and wear badges and comply with other regulations, making their identification easy.

The council granted a special permit to W. J. Jones for the construction of a one-story building just west of 118 East Platte avenue. The permit is subject to the approval of the city engineer's office.

## SECOND VICTIM OF EARLY MORNING DUEL SUCCUMBS

**Koster Dies at Hospital—Coroner's Inquest Throws No New Light on Shooting at Papeton**

Marko Koster, who was shot by G. Kosta, a revolver duel at Papeton early Thursday morning, died yesterday at St. Francis hospital. The body, together with that of Kosta, who died a few moments after being shot, will be taken to Pueblo for interment.

Coroner Lawrence Heyle held an inquest yesterday afternoon, but the jury failed to unearth any more facts than are already known. The only decision reached was that each of the men had died from gunshot wounds inflicted from a gun in the hands of the other.

Although a thorough investigation has been carried on, the sheriff's office has learned no more about the duel. No reason for the quarrel can be ascribed and friends of both men apparently know nothing of their relations.

## Walking 3,000 Miles for Purse of \$3,000

On a 3,000-mile "hike" for a purse of \$3,000, Roy Comstock and Frederick Volk, both of Toledo, O., arrived in Colorado Springs yesterday afternoon, a day's rest before continuing the long journey. The young men are walking from Toledo to Los Angeles, and must complete the trip in 110 days to win the purse.

"We have been out 47 days," they said last night, "and are seven days ahead of our schedule. Under the conditions of the contest we must walk 30 miles a day to complete the journey within the required time. Coming across the prairie we made all the time possible in case we found mountain roads difficult."

The men are allowed 10 days for stopovers and to rest in case of slight illness. Being allowed to neither beg, borrow nor steal, they are making their living enroute by selling postcards. They leave today for Denver.

## DR. PRATT TO PREACH TO MEN ONLY, SUNDAY

A mass meeting for men will be held tomorrow afternoon at Temple theater, when Evangelist Pratt will give an address on "Male Sex Hygiene." Admission will be by ticket and men and boys over 15 years of age will be admitted. Tickets have been distributed around the city. There will be special music.

The regular Sunday afternoon, Y. M. C. A. meeting will move with this season. The meeting will begin at 4:45 o'clock and the doors will open at 5 o'clock.

## REVIVAL SERVICES, BEGINNING TOMORROW, TO BE TRANSFERRED TO TEMPLE THEATER

**Crowds Attending Evangelist Pratt's Meetings Still Increasing; Special Services Sunday**

"Repentance" was the subject of Dr. Pratt's sermon last night at the revival service in the First Methodist church. "Except ye repent ye shall all likewise perish," he preached. At the close of the sermon a number indicated their desire to repent.

It was the last of the services to be held in any of the churches. There will, as usual, be no service today. Beginning tomorrow, Sunday, all services, for the remaining two weeks of the meetings, will be held in Temple theater, except next Wednesday night.

Last night's service, too, was the last of the preparatory services. With the beginning of services in Temple theater it will attend, and Evangelist Pratt believes the interest is now such that many will be saved. The first service in the theater will be held tomorrow morning at 11 o'clock, a union meeting of the four churches that have united in securing the services of Dr. Pratt. In the afternoon at 3:30 o'clock there will be a second service in Temple theater, this being for men only. Boys under the age of 15 not being admitted. In the evening, also, there will be services there at 7:30, and every evening thereafter throughout the week except Wednesday.

**Plan Big Day Tomorrow.**  
Tomorrow is to be made the great day of the revival thus far. The first meeting will be a sunrise prayer meeting at the First Methodist church at 7 o'clock. Then will come the Sunday school services at the regular hours in the various churches. At 11 o'clock will be the union meeting in Temple theater. There will be four services held simultaneously at 3:30, Sunday afternoon. One will be the men's meeting in Temple theater. The married women will have a meeting in the Christian church, the unmarried women in the Methodist church, the children under 15 in the Presbyterian church. There will be a union meeting of all young people's societies in the Baptist church at 6:15 o'clock, the day's services ending with the big rally in Temple theater at 7:30.

The district prayer meetings will be continued next week, and downtown meetings will be held at noon for those who are unable on account of business to attend the cottage meetings. Tuesday, Wednesday and Friday at noon Dr. Pratt will conduct a noon prayer meeting for men in the Princess theater, with singing by Mrs. Booth. At the same hour on the same days Miss Heus will conduct a prayer meeting for working women in the Y. W. C. A. building.

The crowd at last night's meeting completely filled the Methodist church. Repentance, Dr. Pratt defined as the pathway men back to God. He declared it had been the same in all the years covered by Biblical records, and in the same today.

**No One Without Sin.**  
"There can be no repentance without consciousness of sin," he declared. "It is not necessary that your sin be known to men, but no man in God's sight is without sin. There is not a man on earth who, in the secret meditation of his innermost heart, does not realize that he has come short of what is expected of him by God. The consciousness of sin is choice of self in place of God, setting your own will above God's will, doing as you please, not as he wants you to do. It is what you are in God's eyes that counts. No man ever got near enough to God to be saved without a profound conviction of his sin."

There can be no repentance without

## FIRST POLICEMAN TO BE NAMED IN FEW DAYS

**Part of New Official's Time Will Be Devoted to County and Part to City**

Colorado Springs will have a policeman within a few days if the plans of the city commissioners and Judge W. P. Kinney of the juvenile court are successfully carried out. The woman officer will devote a part of her time to work with the police and the remainder to the work of probation officer for the juvenile court.

Judge Kinney has notified the county commissioners that he intends to have two probation officers next year, as provided by law, and provision will be made for the extra official in the new county. The county and city each will pay \$800 a year salary for the policeman.

With the provisional policy working so well, Judge Kinney believes the county will eventually save money by appointing a woman officer. In his communication to the commissioners he pointed out that it now costs \$180 a year to keep a girl in the industrial school and that with a woman officer it probably will be possible to greatly reduce the number of offenders by making them see the wrong before it is committed.

## Simply Scrumptions

**BLACK WALNUT MOLASSES CHews**

**20c a lb. Saturday Only**

This delicious confection, reminiscent of the Sunny South, is made from the finest New Orleans Golden Top Molasses and new crop, black walnuts.

A combination that is truly a sweet, mouthsome surprise.

Be sure and buy a pound or more.

## Don't Worry—Eat

Memphis, Tenn.—Mrs. Emma D. Looney, of this place, says: "I suffered misery for nearly eight years, but since taking Cardui, I am much stronger, and I haven't missed a single meal. I hardly know how to express my gratitude." Don't worry about your symptoms—Cardui doesn't treat them. What you need is strength. Cardui helps you to get it. Take Cardui, because other tonics and medicines do not contain the peculiar and successful ingredients, imported especially for its manufacture. Had a century of success, has stamped Cardui with the seal of public approval. During this time, Cardui has benefited a million women. Why not you? Try it today.

## PIKE FOREST VISITED BY 80 FIRES IN 1913

**Efficient Methods, However, Kept Burned Area Down to Fifty-five Acres**

Fifty-five acres burned over by forest fires, out of more than 1,200,000 acres under protection, is the 1913 fire record of the Pike national forest. Approximately half of this fire swept area was patented land belonging to private individuals, while the actual amount of government land burned over was only one acre in 43,000.

Never before have the officers of the Pike forest experienced such a strenuous fire season, a total of 80 fires having been discovered and extinguished since the first of the year. Other within or adjacent to the forest. The nearest approach to this record is the season of 1910, when 72 fires burned over 425 acres of government land and 220 acres of private property within the forest. The difference in the amount of timber and other products destroyed by fire in the two years mentioned is, however, very marked, the loss in 1910 amounting to nearly \$2,000, while in 1913 it was only \$250.

## TERROR-SOUTH DENVER CAME ENDS SEASON

### EDDY NORTHERNERS TO FORCE LOCALS

Should Be Hard Fought,  
Both Teams Having Good  
Season Record

Back goes the lid on the football season this afternoon five players who have worn the red and white for two and three years will cross the chalk lines of scholastic football for the last time. The Terrors meet the South Denver school eleven this afternoon at 2 o'clock on Washburn field. Both teams have played topnotch football and the locals, under the tutelage of Coach Acker, have developed probably the fastest eleven in the city. The use of modern football, the hard pass, outside kick, trick formations, have been drilled into the Terrors and they uncorked a brand of class open stuff last Saturday in game with the Boulder Preps. The Terrors are not in as good shape as they were last week. Lendrum, the end, will probably not be able to play the entire game. However, although his loss will be felt in the third pass department, there are others who can hurl the leather to a degree of accuracy. Chase, replace him if needed. Lendrum will do the long punt for the Terrors while Davis will kick the short kicks from quarter position.

Denver players will have a powerful offense to gain much on the Terror line. The brown vs. blue proved a formidable about the season and especially a forward pass of other teams.

South Has Strong Team. South Denver is represented by the first team in history. It defeated Denver 41 to 0, while the Preps only able to win from North 5 to 0.

South is represented by the first team in history. It defeated Denver 41 to 0, while the Preps only able to win from North 5 to 0.

## U. C. FAVORITE OVER MINES IN CONFERENCE TITLE GAME TODAY

All Bets Declared Off by the  
Coaches; Punting Duel  
Is Expected

Conference football in the Rocky mountain region reaches its climax today in Denver, when the School of Mines and the University of Colorado eleven meet in the title game. Both teams have played good football throughout the season and the interest in the game is running high throughout the state. Denver is football mad, and the students of both institutions probably will attend almost en masse.

Coaches of both teams sprung a surprise yesterday when they announced that all bets should be declared off. This is the first time taken in years against betting on college students on football games. The odds in Denver pool halls were running 10 to 7 in favor of the university.

Boulder is favorite, not on its victories, but on its weight and backfield. The team was slow in getting started, but, after the Tiger game, struck the stride. In Nelson, the varsity has the best punter in the conference, and in the backfield, Donovan, captain, has no equal as a line plunger. Walters is a good quarterback.

The Mines have their terrible shift, but the heavy Boulder line probably will stop it and force the Diggers to open up. Stufingman, the Manitou lad, probably will do the Mines' punting.

The teams will line up as follows:  
COLO. U. MINES  
Huber, lb., 143 Shamley, lb., 140  
Knowles, lb., 148 Delattre, lb., 141  
Sloan, rg., 196 Duggelby, lb., 138  
Eckel, rg., 179 Johnson, lb., 136  
Gentry, rg., 214 Taylor, rg., 154  
Spring, rg., 184 Lavender, rg., 172  
McConnell, rg., 155 Pierce, rg., 144  
Walters, qb., 165 Harper, qb., 142  
Donovan, lb., 160 Burris, lb., 143  
Ivers, lb., 167 Hinman, lb., 152  
Nelson, rg., 162 McKnight, lb., 154

SHRUBS ARE BUDDING  
IN CHICAGO PARKS

CHICAGO, Nov. 21.—Operations of the weather as a nature faker in this vicinity were exposed today with a temperature of 62 and shrubs in the parks putting forth buds. The present warmth is unprecedented in the November records of the weather bureau.

## HEAVYWEIGHTS SIGN FOR BIG BOUT IN TWO WEEKS

Graham and McMahon Post Forfeits  
for Scrap in Manitou; Both  
Some Husks

Articles were signed yesterday by Bob Graham, Pacific coast heavyweight and Fred McMahon, the Illinois giant, for a 10-round championship bout in Manitou some time in the next two weeks. The men posted \$100 forfeits and start training immediately.

It has been some time since the region has had two scrappers of such caliber. Both men weigh over 200 pounds. Graham is built close to the ground while his opponent's weight is scattered over six feet and eight inches of anatomy.

The scrap will be pulled off at the Hiawatha theater in Manitou.

NEBRASKA-IOWA GAME IS  
ATTRACTING HUGE CROWDS

LINCOLN, Neb., Nov. 21.—Lincoln holds a football crowd tonight of a dimension that threatens to tax the seating capacity on Nebraska field tomorrow, when the Cornhuskers and Iowa meet for the game that winds up the season for both teams.

PRINCETON PLAYERS CHOSE  
HARVARD TO WIN, 13 TO 1

PRINCETON, N. J., Nov. 21.—Before leaving for Cambridge this afternoon to witness the football game tomorrow as guests of the contesting eleven, a poll of opinions of the Princeton football men who have played against both Harvard and Yale gave the victory to Harvard by a 13 to 1 score vote.

Harvard Big Favorite:  
Against Princeton the Harvard line developed unexpected weakness on both offense and defense, and it was only in this contest with the Tigers that the Crimson was put to a real test. The shift formations of Princeton puzzled Harvard's forwards, and they were unable to check the advance until well into the second quarter.

Slippery field robbed the Tigers of much of their speed. It was in this emergency that the secondary defense came to the fore so valiantly. That the teams will play a hard fast game from the opening whistle is expected. Yale is likely to attempt to upset the Harvard combination by savage attacks and tackling at the very outset of the game. If the Crimson can maintain its composure and deliberate, machine-like play during those early onslaughts, one crisis in the contest will have been safely passed, for Yale has great respect for the slow but sure methods that have proved irrefragable in all games this season with the one exception of the Princeton contest.

Aside from the Harvard-Yale game, the chief interest of eastern football enthusiasts will be centered in the showing of the Army and Navy teams which meet one week from tomorrow. Of the two eleven, the cadets have included in the day's program. The annual game between Ames and Drake is an event of more than ordinary note in Iowa; Purdue and Indiana fight their yearly battle, which on past performances should result in a rather easy victory for the hoiler.

England's Prospecting  
for Tennis Sharks Fails

LONDON, Nov. 21.—The efforts of English lawn tennis enthusiasts to organize a general campaign for the recapture of the Davis cup have met with no success thus far, and pessimism colors all gossip over the prospects.

The plan to discover promising players between the ages of 20 and 25 years is deemed a failure at present for the reason that no such players have been discovered. The only players of real ability are well advanced in years. Hope Crisp, former Cambridge champion, is the best of the so-called younger brigade, and he is nearer 30 than 20.

## Have You a Disordered Stomach and Liver?

Do you start the day feeling that the whole world is against you? You cannot hope to "make good" under these circumstances. Nobody can. You must have a clear brain and every organ in perfect trim to do justice to yourself.

## Dr. Pierce's Golden Medical Discovery

Will Bring Quick Relief

Dr. R. V. Pierce found years ago that a glyceric extract of Golden Seal and Oregon grape roots, quina's root and bloodroot with black cherry bark, would aid in the assimilation of the food in the stomach, correct liver ills and in nature's own way enrich the blood, tone the entire system and consequently help in the restoration of perfect health. Many who have used Dr. Pierce's Golden Medical Discovery testify that they have been restored to health when suffering from stomach and liver ills. Let this famous old medicine start today to lead you to health and strength.

Now—if you prefer—you can obtain Dr. Pierce's Favorite Prescription tablets of your druggist at \$1 per box, also in 50c size or send 50 one-cent stamps to R. V. Pierce, Buffalo, for a trial box.

You can learn all about hygiene, anatomy, medicine, etc., from the People's Common-Sense Medical Adviser, by Dr. R. V. Pierce, a newly revised, up-to-date edition of which is now offered, in cloth covers, post-paid, for 81 cents in one-cent stamps, to cover cost of wrapping and mailing only. Address, Dr. Pierce's Invalids Hotel, Buffalo, N. Y.

Don't be misled by sluggish bowels. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar coated, tiny granules.

The Best Physic  
Gave Him Up

"I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mr. J. A. D. L. of Washburn, Tenn., Route 2, Box 8. "All my friends thought I would die and the last physician gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and derived much benefit from same. My case had run so long, it had become so chronic, that nothing would effect a permanent cure. But Dr. Pierce's medicine has done much for me, and I highly recommend it. I have been able to do my work and am now as well as a spring tonic, and further advice all people to take Dr. Pierce's medicine before their case gets so far gone as long as this is so, I hope to be cured."

Chicago Must Beat Wisconsin  
to Claim "Big 8" Title;  
Kansas-Missouri

CHICAGO, Nov. 21.—Four big games will wind up the football championship campaign in the central states tomorrow. Leading in the race for the western conference title Chicago must defeat Wisconsin to have her honors unchallenged, for should Wisconsin win she will claim an equal standing with the Maroons and Minnesota in the race. Minnesota at the same time to maintain her place next to Chicago must win from Illinois. Nebraska's claim to the Missouri Valley championship depends on the outcome of the Kansas-Missouri game. Should Kansas defeat Missouri, Nebraska, by her victory over the Jayhawkers, will be entitled to preeminence, but if Missouri wins her right to the title will equal the Nebraska claim. Meanwhile Nebraska has a battle on her hands with Iowa that will go to show, in a measure, the relative strength of the conference and the Missouri valley teams. A number of games of less general consequence but of first importance in their several spheres are included in the day's program. The annual game between Ames and Drake is an event of more than ordinary note in Iowa; Purdue and Indiana fight their yearly battle, which on past performances should result in a rather easy victory for the hoiler.

Robinson, Cutler Star,  
Deprived of His Records

YOUTH WHO BROKE 100 AND 220 DASH  
Marks Not Given Titles by A. A. U. No Specific Reason

According to press dispatches from New York city, the A. A. U. has declined to accept as official the records made last spring by A. S. Robinson, Mercersburg academy runner, and former Cutler academy athlete of this city. Robinson ran the 100-yard dash in 9.3 seconds and flew over the 220-yard course in 20.4 seconds, new world's records.

No specific reason was assigned for turning down these records. A. A. U. officials declined to discuss the matter. Who made the protest against Robinson's records and what arguments were presented against his time are not known.

Robinson was a student at Cutler academy here for one year, having come west on account of his health. He participated in only one meet here. After his performances last spring, he was hailed as the fleetest sprinter in the world.

makers, and Lake Forest and Knox meet to settle the championship of the "little five." Notre Dame takes on the Christian Brothers eleven in a contest which should furnish the Hoosiers sufficient practice for their game with Texas! Thanksgiving day, when games commence in the Northwest, is Ohio State at Columbus and South Dakota vs. Creighton at Omaha.

## COST OF AN EXTRA SESSION

THERE has been some talk to the effect that certain members of the legislature want an extra session called, in connection with the present coal strike, in order that they may get more pay. That statement is based on ignorance of the facts. The members of the legislature will lose money if an extra session is called. Under the present law they are paid \$1,000 for the term, whether they are in session one month or six. They draw the balance due them whether they hold another session or not.

The money argument, if it exists, is against an extra session. Undoubtedly there are members who would rather see the strike continue than to lose what it would cost them to go to Denver for an extra session. The only cost to the state for the holding of an extra session would be the wages of clerks and stenographers. A two weeks' session probably wouldn't cost more than the maintenance of the militia in the field one day.

The spirit of real progressiveness characterizes Progressives all over the state. Progressives of Denver are no more bound by precedent than are the Progressives of Colorado Springs. Following the lead of the Colorado Springs Progressives, the brethren in Denver are to hold a meeting for the discussion of a project for a municipal mine. A party that isn't afraid to tackle live issues is the kind of a party that is bound to survive. While the Progressives are thus active over the state in efforts to bring about a solution of our industrial problems fair to all, has anyone heard of any constructive plan advanced by either Democrats or Republicans?

## OPEN-PARLIAMENT

[An Editor intended for the Open Parliament must be the name and address of the writer, not necessarily for publication, but as an evidence of good faith. Controversial letters will not be published without the signature of the writer. Communications for this department should be limited to 100 words and should be free from personalities. Religious controversies cannot be conducted in this column.]

### OPERATORS AND MINERS.

To the Editor of The Gazette:  
 Many owners of coal stock never saw Colorado, never saw a coal mine. Their business is to own profitable stocks and bonds. If a mine is not profitable their efforts are responsible, and as there are many efficient managers, a manager who can produce a profit is required to do so, even though it be at the cost of safety or a reduction in wages to the miners. The attitude of the owners is not coal mining. They simply own the power of telling the worker whether or not he may have a job. And, as a job means the right to live, this is a very powerful thing.

It is sufficient to rule the officials of all governments, sufficient to cause Peabody to settle the Cripple Creek strike in the mine owners' favor with the militia, sufficient to send our militia companies to Trinidad to be recruited up to fighting numbers from the imported gunmen formerly paid by the mine owners after our governor had given his word that both sides would be disarmed and no scabs imported. Now see how he has kept faith. This power of owning other people's right to live is sufficient to dominate an arbitration board, as our fellow workers in New Zealand have discovered to their sorrow. It is sufficient to keep our mining laws from being enforced in Colorado for years.

Why should the public not own this power by owning their own jobs? Are not the workers to be trusted to elect an efficient Foreman? All efficiency comes out of the ranks of labor. Can't we be trusted to know our most efficient man? We most certainly are working near him. If our governor would work these mines, keep them up to standard, pay the workers the old wage, and turn the profits over to the state until such time as the disputants get together the strike would be as good as settled.

If a little democracy is good, if a little public ownership is all right, why not go all the way? It is to be hoped that our voters realize the power in the initiative referendum and the recall.

A. C. SWISHER.  
 905 South Weber street, Colorado Springs, Nov. 21.

### HARD TIMES IN CALIFORNIA.

To the Editor of The Gazette:  
 I have just returned from California where I cut the enclosed clipping from a newspaper. I desire to state that this condition of things in California is largely attributed to the eight-hour law for women, it being necessary to employ boys in many positions formerly filled by girls. The law discriminates there as it does here and a case is now before the United States courts for decision on the ground that it is in violation of the fourteenth amendment.

AN OBSERVER  
 Colorado Springs, Nov. 21

SAN FRANCISCO, Nov. 6.—To the governors of all the states of the Union the Young Women's Christian association of San Francisco has sent letters asking their aid in coping with a situation which is rapidly becoming alarming.

Women from all walks of life, say the letters, have been coming to the association in constantly increasing numbers from good positions in the east under the impression that the Panama-Pacific International exposition will create more positions than can be filled by women of the state. Many of these women say they are already starving.

There are already in California, announces the association, more than enough women to fill every position now open or which might be created as the result of the exposition.

### THE PRACTICAL SIDE

To the Editor of The Gazette:  
 At the Brotherhood banquet, January 31, 1913, last evening, Mayor McKelton made an impressive speech calling attention to the practical side of the labor problem. He called attention to the need of physical culture and athletics for the young men of the city, and pointed out the fact that the churches for having fostered away so much valuable time for the young men and women in the city, had destroyed the physical culture and athletics of the young men and women of the city. He pointed out the fact that the churches for having fostered away so much valuable time for the young men and women in the city, had destroyed the physical culture and athletics of the young men and women of the city.

## THE BALLOT

There is a great deal of discussion today in the churches as to why their members don't reach the masses. Did they ever stop to consider how Jesus actually reached the masses? It certainly wasn't by building costly churches for the public exhibition of the church. It certainly wasn't accomplished by hobnobbing with the rich or by consulting with the money power. He didn't fear ostracism.

"Heaven is within you," said the Master. It is, providing our souls are properly attuned, but our souls cannot be attuned when we are lacking the necessities of life and our jobs are insecure, nor can God ("God is Love") dwell in that heaven within us if that heaven has been destroyed through economic servitude and poverty. The answer the churches realize the fact that real religion has an economic foundation and that the present economic system is grossly unjust and rotten to the core the sooner will they realize the true and exact means whereby the masses may be reached.

Colorado Springs, Nov. 21.

## THE BALLOT

BY GEORGE FITCH  
 Author of "A Good Old Siwash"

The ballot is the weapon of liberty. Like other weapons, it is most dangerous to its owner when it isn't loaded.

So long as the common citizen keeps charging indignantly around with his ballot in his hand he is treated with fear and respect by all. But when he lingers at home on election day and toasts his toes at the fire while the hosts of evil hunt for his votes with automobiles, his ballot withers and his power with it. And when he calls at the city hall to ask why he has been assessed for a pavement which has been put in an alley, he receives the rude guffaw to say nothing of a punch in the back from a politician's club.

"Until he casts his ballot he is a giant."

However, the ballot is not entirely to blame for what happens. A ballot must be used with intelligence just like a hair brush or a garden hose or a collar button. If some men put as much brains and careful thought into voting as they do into pushing a lawnmower the nation would get better results.

The ballot is the precious possession of every freeborn citizen. No matter how small or insignificant the citizen may be, the ballot makes him, for one day at least, as big as any other citizen. For months and years he may suffer under his wrongs without sympathy or remedy. Haughty office holders may flout him and there is naught for him to do save write to the complaint corner of his daily newspaper. But on election day he rises a man of might, takes his ballot from its casket and as he walks down the street stepping over trolley wires and small buildings the potentates of yesterday bow down before him and ask him with anxious hospitality to have a drink. Until he casts his ballot he is a giant. Small wonder that so many men do not vote until 5 p. m.

Politicians stand in fear before the man who uses his ballot at elections as if it were a cutlass, and relentlessly mows down the unworthy officeholder. But they only laugh at the man who sits at home on his ballot like a setting hen year after year trying to hatch out good government.

(Copyrighted by George Matthew Adams.)

## What Five People Saw

BY RUTH CAMERON

Every human being's life is both subjective and objective. That is, it consists of the things and people and conditions that surround him plus his reaction upon these things, people and conditions.

We all know that. But do we realize that the individual reaction is more important than these external conditions?

Two people may live in the same house, read the same books, look at the same pictures and furniture, hold converse with the same neighbors, and yet live totally different lives, because their individual reaction on these identical conditions is so entirely different.

Two people walking down the street together will not see the same things. One will see houses and types of architecture, another the habits in the perambulators, another the gowns of the women, etc., etc., according to their tastes and interests. But to go still further, they may look at exactly the same thing and see something entirely different.

Once upon a time I spent a summer in a cottage built near a bit of beach where the waves thundered in and broke in magnificent surf. We had many visitors and of course we took them all down to see this sight.

And they all saw or heard something different. The engineer watched for a few minutes in silence and then he broke out, "What gets me is the wasted energy! Why look just at the way those waves thunder in! I'd like to know how many foot-pounds of energy there are in every wave. Think of the work they would do if we could only harness them!"

The athlete immediately wanted to know if any one swam on that strip of beach. "If there isn't too bad an undertow I'll try it tomorrow," he decided. "Those waves must be three or four feet high, but I swim in higher surf than that last summer."

I don't care so much about watching them, said one of my visitors, "but I could sit for hours and listen to that dull boom they make!" On the other hand, my artistic friend disliked the noise of the waves, but was delighted by the beauty of the scene and noted about the wonderful picture this view afforded.

A practical and anxious visitor seriously conceded a climb to the magnificent surf, before he turned his back on it to look up at the cliff behind us and wonder why the cottagers dared build so close to the edge. Look at the way the surf is coming away that way," he exclaimed. Ten years from now this cliff will move these houses!"

And so we see how each visitor took little bits of the waves rolling in, put them in his mind, and made his own reaction upon them. The subjective dominates the objective and it isn't the things of the world, but the conditions of the mind that matter.

## ROYALTY UNBELTS

From the Denver Post.  
 Mrs. C. J. ... who is a ... We certainly up ...

## ODDS AND ENDS

There is at least a faint ray of hope in the strike situation. Governor Ammons is going to turn things over to the federal government.

"I may even have to ask the federal government for aid," says the governor. This is the same governor, be it remembered, who has bitterly reviled the federal government for its interference in Colorado.

A state that can't even handle a strike involving only its own citizens can't hereafter make much of a fuss if the federal government refuses to relinquish control of the vast property in this state belonging to the federal government.

It has been demonstrated, too, that Pluchot still controls the Conservation congress. The anti-conervationists will have to begin their fight in congress without the powerful backing of that body.

If President Wilson but remains true to real conservation the anti, even using the Democratic argument of state rights, will not be able to carry through their projected raid on the public property.

Colorado Springs has reason to be proud of the number of gifted sons and daughters who have given to the state during her short history. And among these Amy Ahrens is certainly not the least, as she abundantly demonstrated in her first concert.

The Federated Trades Council showed good judgment when it selected "Tommy" Thomas as one of its representatives on the coal investigation committee. "Tommy" knows the game.

The Wilson administration hopes that Huerta's iron hand is losing its grip. But Carranza has demonstrated that there is about as much iron in his hand as in Huerta's. It looks like the iron hand for Mexico, no matter how things go.

The disclosures that a syndicate of officials took \$7,400,000 in graft from the Frisco arouses not even a ripple of excitement. It has been the customary thing in American railway business. But who can imagine the howl that would have gone up from all over the land if city officials had plundered a municipal utility to that extent? Wouldn't it have been proof positive of the failure of municipal ownership?

Retail prices were higher on August 15 than at any previous time. That tariff bill seems to leave something to the imagination when it comes to reducing the cost of living.

Governor Stubbs of Kansas says Roosevelt is the only man who can defeat Wilson in 1916. There are many Republicans who realize that same truth, and who are wondering what he do under the circumstances.

Full state ticket in Kansas in 1914 is new only to those people who have been misled by the standard-inspired statements that there would be amalgamation.

Meantime Colorado Progressives opened their campaign for 1914 at a well-attended and enthusiastic banquet at Greeley.

Amalgamation will come when all those Republicans and Democrats who believe in Progressive principles get together in the Progressive party.

The Grand Junction Sentinel runs an editorial on "The Tragedy of Pompeii." Democratic editors are being driven to extremes to avoid commenting on Governor Ammons' do-nothing policy in the coal strike.

Day Day of the Durango Democrat is off the reservation, of course. He says:

Newspapers of Colorado are not "thoroughly" represented by corporate editors or friends of those who bought the tariff schedule. This practice of four or five speaking for the state will about have to cease."

Government ownership of all railroads, says Gilson Gardner, the famous Washington correspondent, "is the next big public move." In this, he says, "Wall Street will acquiesce." Respectfully commended to the esteemed Telegraph.

And by the way, isn't it a rather fat city to argue from the fact that the Oregon utilities commissioners prefer monopoly to competition in public utilities, that therefore the monopoly should be privately rather than publicly owned?

Anyway if Captain Hobson has the endorsement of the Anti-Saloon league in his fight to be elected senator from Adams, Underwood has the endorsement of Colonel Mulhall and the National Association of Manufacturers.

The coal strike could be called off if there were sufficient patriotism and intelligence in the operators and the miners and efforts to suppress the national office—Boulder Camera.

The governor is expected to enforce patriotism and intelligence. But what has he done?

Editor Paddock, mah Lou, mah Lou, mah Lou of the Boulder Camera, cannot see, hear or understand how Clarence P. Dodge of Colorado Springs Gazette can use recognition of the union when he is a millionaire.

Now C. P. might start something by asking Lou how an alleged Democrat could be managed to sign up with a list of corporation scoundrels—Durango Democrat.

## Hardy's Gift Suggestions

- Art Lamps, \$10 to \$50.
- Desk Sets, \$5 to \$75.

## IN THE EARLY DAYS

THIRTY YEARS AGO TODAY TWENTY YEARS AGO TODAY

Nov. 22, 1913 Nov. 22, 1893

Governor Grant, in interviews reported in The Gazette, minimized the trouble at the Deaf and Blind Institute, blaming President Walker.

Del. Whittle of Davis & Whittle, clothing, left for the east, intending to be gone several weeks.

Mrs. F. E. Robinson left for her ranch near Monument, where she expected to remain several weeks.

Isabella was presenting investors, having gone to 25 cents on the report that it had struck the Victor vein, and then dropped to 15 when Manager Hagerman exploded that rumor.

Mrs. E. T. Marsh was given a birthday party by her daughter, Mrs. F. L. McMichael and Miss Lottie Anderson.

M. H. Wilbur returned from an eastern buying trip.

## "Scientific Management" in African Mission.

A Radical Experiment Wrought in West Africa by a New York Board: Results Increase One Thousand Fold; White Missionaries Made Overseers, Instead of Pastors; Native Preachers Trained; Training for Blacks

BY THE RELIGIOUS RAMBLER

The most striking instances of "scientific management" in Christian missions that has marked the development of the propaganda on a strict efficiency basis is reported from West Africa by the Northern Presbyterian Board of Foreign Missions. It is important and far-reaching is this in its moral effect on all the vast operations of the mission boards of Christendom, and so inherently interesting is the story that it is worth telling with some detail.

A 10-year trial period was adopted for working out what is known among experts as "The New Method," promulgated by the late Dr. Nevius, of Chfoo, China, and in a general way followed successfully since in Korea. The board had the courage to say that it would stake the life of the mission on the experiment. If 10 years of fair trial should prove a failure, the field would be abandoned and some other sought.

Now, at the end of the decade, an amazing increase in all respects is reported in the matter of church going. It has risen to as high as 1,000 per cent. In the interest of efficiency four of these West African mission stations were transferred to a French society, thus lessening the figures shown.

Summarized, the growth of the work in 10 years has been tabulated thus: Amount contributed through 78 78 78 1904 1913

Native force 55 257  
 Communicants 1,832 4,144  
 Catechumens 15,257  
 Boarding and day schools 27 125  
 Pupils 984 9,564  
 Amount contributed through native sources \$1,478 \$14,474

Staking All on Ten Years.—All this was a departure in missions, but the modern scientific era in church work had arrived. It used to be counted most meritorious in a mission or missionary to hold on. Despite a lack of results and other practical considerations. Only the faith and hope of the worker were considered, and those were sometimes assumed, greatest when there were no results. The methods of the missionary were not looked into.

But here the Presbyterian board has dared to make a trial of the modern way, allowing in adequate period of time, and in a systematic mission West Africa was chosen a mission that 10 years ago was filled with desperation among the workers that was extraordinarily costly in lives and in general bearing comparatively scant fruit. The people were stark savages, given to polygamy, fetishism and the usual acts of human barbarism. They were a "lost" soul for humanity.

The conditions laid down by the New York board in its last with the

The everyday, easy way to judge the popular interest in religion is by counting the number of churchgoers. That test holds in Africa. The high-water mark prior to the 10 years' experiment was reached in 1904, during the visit of Secretary Halsey, who of course appeared as a "big chief" and for whom the largest possible groups were gathered. The four largest congregations reported by Dr. Halsey were 400, 1,000, 1,000 and 1,000. This year, at the 10th anniversary of the mission, the number of churchgoers was 4,144. It is not uncommon to have many persons present at church services now as gathered to meet Dr. Halsey in his latest congregation. Probably no other American missionary has ever had such a large number of churchgoers. The report (Continued on Page Nine)

## NEW YORK MARKET

## CHICAGO MARKET

NEW YORK, Nov. 21. There was little to distinguish today's stock market from the sleepy sessions which have preceded it this week, although the tone was better. At the outset there was a small decline, owing, presumably, to the influence of the dragging market for American stocks in London and the sharp break in copper metal prices abroad. The market showed greater activity, however, than yesterday, however, and the opening hours were made up, some of the leaders rising well above the previous close. Speculation dwindled as the day advanced, and prices eased off slightly from the high point, but there were no steady, widespread weakness, despite marked heaviness in individual cases.

Heaviness of the copper acted as a drag on the whole list. The break in London metal prices was followed by a sharp drop in the domestic market at the close. Speculation was increased by news that reduction in working forces, heretofore confined principally to steel mills, had spread to other industries.

Heavy cash gain for the banks on the week was predicted, despite shipment of \$2,500,000 to Canada, making the week's shipment to the dominion \$3,500,000.

Further shipments across the border are expected on account of the extensive movement of Canadian grain to export. Much of the grain is going forward through American points and selling of grain bills here places large balances to the credit of Canadian banks.

## BRADSTREET'S REVIEW

NEW YORK, Nov. 21.—Bradstreet's tomorrow will say:

"Mixed characteristics are presented in the week's trade news. Thus, seasonably mild weather has hampered retail trade over a wide area. On the other hand, activity in holiday trade has tended to close up some of the gaps caused by mild weather. Winter wheat is in fine shape over a record area, railway traffic is being conducted with relative ease, farmers appear to be prosperous, and country banks report a rather heavy demand for loans."

"Wheat, including flour exports from the United States and Canada for the week aggregate 6,148,023 bushels against 6,144,587 last year."

## DUN'S REVIEW

NEW YORK, Nov. 21.—Dun's Review tomorrow will say:

"Trade conditions are reflected in the unusually light demand for money, especially in the east. In the south and west, there is a little more inquiry. The recession in iron and steel is more pronounced than in previous weeks."

"Current demands from the railroads are disappointing and the falling off in consumption also has extended to less important lines, while there has been no check to the declining tendency in quotations. In copper, the situation continues one of extreme dullness and substantial concessions are offered from the values previously prevailing."

## Spend a month in sunny

Way down South on the Gulf Coast, where are the great resort hotels, the surf-fringed beaches, the palm-lined avenues and all the Southland's winter charms.

Try a little deep-sea fishing and take your gun along—there's plenty of game. Splendid roads for motor-ing and golf links, too. Roses and oleanders are a bloom in January.

Go South on the Santa Fe this winter—convenient train service—winter tourist fares.

Ask the Santa Fe man for a copy of illustrated booklet, "Texas Resort Hotels."

Remember the Panama Exposition at San Francisco and San Diego in 1915.

118 E. Pike's Peak

## Arrangements

## "THE GIRL AND THE TRAMP"

Fun of the real uproarious kind predominates in Carlos Inskeep's laughing comedy success, "The Girl and the Tramp," which comes to the Opera House today, but there are other things besides. The play tells an absorbing heart story of a supposed wrong to a young husband, which happily comes out all right in the end. Then, too, there are many startling dramatic situations, the explosion of a real automobile, etc. Briefly, it is a performance that should certainly be seen by everyone who enjoys a clean comedy drama.

## "THE ROBBY"

What is the cause of marital unrest? Why is it that the percentage of divorce cases rises steadily every year in the United States? Why should it be that today—tomorrow—you may meet your happily married friend, and in response to your question regarding his wife, he shakes his head and replies, "Divorced." Why should all this be?

These are questions that the ablest minds have wrestled with for the past decade without even a mediocre answer. But the question will not down; it confronts every thinking man and woman over and over again. Legal brains have tried to reply; orators have printed reams of matter and the pulp has thundered its fustianisms. Still the question remains unanswered—unsolved.

Now comes a modern play ensuing a drama called "The Robby," written by Edward E. Rose. Quietly and modestly with no blaze of trumpets, it inserts a quiet word into this turmoil of opinions, which many believe will revolutionize the ethics of marriage and divorce.

"The Robby," under the direction of Ed. W. Rowland, Jr., will be presented at the Opera House Thanksgiving day, matinee and night.

## "THE LURE"

One of the most gifted young actresses on the American stage is Beatrice Prentice, who will be remembered by many players for her appearances as leading lady with Robert Edson, with whom she played in "Strongheart" and "The Call of the North."

She is to be seen here at the Opera House as the girl in "The Lure," George Scarborough's much-talked-about white slave drama.

Miss Prentice has a reputation not only for such strong emotional roles as those just mentioned, but also for characterizations of AMERICAN women types. With Dustin Farnum she played the part of the Mexican girl in "The Ringer." In another play, "The Call of the North," with Robert Edson, Miss Prentice enacted a French-Canadian peasant girl and on another occasion she stepped before the foot-lights as a Russian girl in "On the Eve."

Two decidedly odd roles played by her have been those of the little shop-keeper in "Maggie Pepper," in which she supported Rose Stahl, and of the little girl in "The Offenders."

Her latest named play was put on originally by Robert Edson in Denver and dealt with Judge Lindsey's juvenile court of that city. Therefore, her present role in "The Lure" is not the first character played by Miss Prentice in a drama with the purpose of social reform.

## GRAND OPENING

There will be a grand opening of the modern theater Saturday afternoon at 2 o'clock. The theater has been closed for several days on account of the many improvements being made. Thirty feet have been added to the theater, which will give seating capacity for about 1,000, and also a small stage so that the management is now prepared to add special features of vaudeville to the program.

A new heating system has been installed at considerable cost which will

Choice Articles direct from the Philippines to you at one-fourth ordinary retail prices.

PHILIPPINE POST CARDS—Views and Scenes from all parts of islands, very handsome, 50 all different. One Dollar.

Sent by registered mail. Free of all duties on receipt price.

C. A. SHORT & CO., Lucena, Tayabas, Philippine Islands

insure the building being kept always at the right temperature.

The lighting system has also been improved.

The latest and most up-to-date machinery has been added to the operating booth and the picture projected will be flickerless, causing no eye strain.

Heavy black velvet draperies have been placed around the screen adding greatly to the pictures.

New green velvet carpets have been laid, with great draperies to match.

The ventilation which has always been good is still improved by five large ventilators reaching to the roof, which gives a continuous flow of fresh air.

The theater has five large exits so that in case of fire the building can be emptied in a short time.

A new \$6,000 Hope Jones unit orchestra has been installed. The instrument that all the leading moving picture houses are using.

The management is now prepared to give the patrons the best that can be provided.

## COTTON MARKET

WASHINGTON, Nov. 21.—Cotton gained point to November 14 amounted to 10,442,000 bales, the census bureau announced today. Round bales included 14,127; sea island cotton, 52,678.
